

BRAVES, COMCAST FORGE TECHNOLOGY PARTNERSHIP

Comcast will provide video, voice and high-speed Internet throughout the 60-acre project, which includes the new stadium, retail, restaurants, an office tower, hotel, an entertainment venue and residential units.

More Internet bandwidth per person than any stadium/mixed-use community.

Multi-terabit network capabilities throughout the complex - enough to support millions of concurrent audio streams.

Ability to deliver **multi-gigabit speeds** to every hotel guest, resident, shopper and business:

Fans:

Simultaneously post 40,000 selfies of the first pitch at SunTrust Park.

Residents:

Stream more than 45 4K videos at one time.

Businesses:

Videoconference with 2,400 partners around the globe.

50+ miles of fiber optic cable - like rounding the bases at SunTrust Park 733 times.

700+ Wi-Fi access points throughout the complex - 4X the number at Hartsfield-Jackson Atlanta International Airport.

Supported by **redundant datacenters with 10,000 fiber terminations** - can power internet service for millions of homes.

Providing Internet connections for a planned **750 large screen 4K smart televisions** throughout the complex - **37,500 square feet of Ultra HD viewing** or four MLB baseball diamonds side by side.
